

Gore Public Schools' Snow Bus Routes

Gore schools' provides student transportation as a courtesy to parents. Routes are designed based on convenience and safety to parents/students. At times, due to weather conditions, it is necessary to alter bus routes. When weather conditions exist that prevent safe operation of regular bus routes, the following alternate routes will be run to continue to provide the safest possible transportation for students. Drivers may have to alter this plan "in route" due to unknown conditions that may be encountered. Please notify us if you know of such a condition along your student's bus route such as bridge out, flooded road, obstacle blocking the route, etc. Contact your route driver directly after hours.

During the school day, call your student's building secretary. Lower Elementary-918-489-5638 and Upper Elementary/High School-918-489-5587. You are our best source of information!

Parents will be notified via media and school notification systems when snow routes will run in place of the usual student transportation routes. If you have not received a SCHOOLREACH MESSAGE this year, contact your building secretary to update your contact information. If at any time parents deem the road conditions unsafe, please use best judgment when transporting your students to the snow route locations. We understand that weather conditions may prevent safe travel from your home, atv. At times and respect your decision to not transport your student (s) to the designated pick up/drop off areas listed. Please understand that if school is in session, students that are not in attendance will have an absence recorded. This is a state department of education requirement and the GPS has no choice but to record all student absences. The absence will be excused but will be recorded in the daily attendance registry.

All times approximate: BE EARLY Approximate pick up times listed. Busses depart school at 3 :20 p.m. for drop off. Drop off will be in reverse order of pick up so plan to meet your student at the snow route locations from 3:20 p.m. -3:45 p.m. depending on your pick up location. BE EARLY to locations as exact times cannot be predicted!!!

(See Pick Up and Drop Off Locations and times list on back side)
