Monthly Reporting and Processing
Each school site with students in grades 7 through 12 must report drop-outs to the State Department of Education on a quarterly basis for each month of the school term, starting with those dropping out in September. The first quarterly period shall end November 30, the second shall end February 28 (29),
and the third shall end May 31. Students should be recorded as dropped by months within each quarterly period. Students shown as a drop-out during a quarter and subsequently re-enters during that quarter should not be reported to the SDE as a drop-out. If a student is recorded as a "no-show" but returns during that quarter, they should not be reported to the SDE as a drop-out. The status at the end of the quarter to be reported should determine whether a dropout should be reported to the SDE, regardless of how many times the student may have dropped out or reentered during that quarter.
